Bug Report №1 Invalid Data

Summary

Invalid data can be input in "Оформлення замовлення"

Description

When the user decides to order some products in "Новий покупець" window he/she can enter special symbols in "Ваше прізвище" and "Ваше ім'я".

Environment:

Windows 10

Google Chrome Version 121.0.6167.140

Makeup.ua website build - current (21.03.2024)

Preconditions:

- 1. Open the site.
- 2. Choose any available product and press "Купити" button.
- 3. In the new opened window press "Оформити замовлення" button.

Steps to Reproduce:

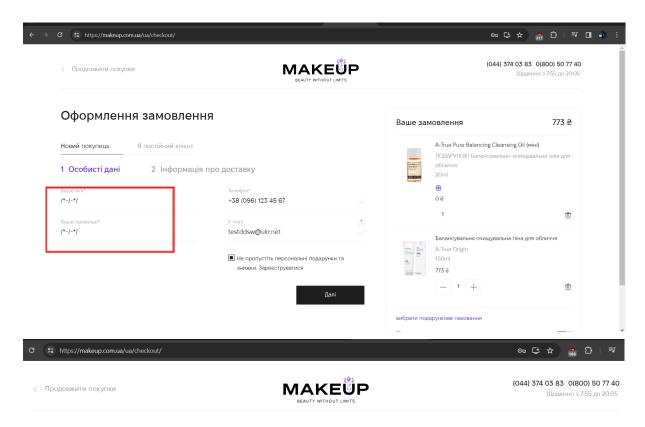

- 1. Select "Новий покупець" window.
- 2. Enter data with special symbols in "Ваше прізвище" and "Ваше ім'я" fields (for example: "/*-/-*/").
- 3. Fill other empty fields with the correct content.
- 4. Press "Далі" button.

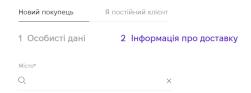

Actual Result:

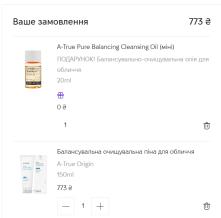

The website accepted data with two invalid fields (screenshot attached) and then redirected the user to another page: "Інформація про доставку" (screenshot attached).

Expected Result:

The pop-up message with information about invalid data in "Ваше прізвище" and "Ваше ім'я" fields appears.
